## **Preliminary 2021 Year-end Financial Report**

This is a preliminary report to provide a snapshot of the City's 2021 revenues, expenditures and year-end fund balances. A final report will be provided in March, which will include year-end adjustments such as truing up charges for General Fund overhead, adjusting charges for internal services funds to reflect the mid-biennium budget amendments, and adjusting the property tax levy lid lift to the amount budgeted.

Budgeted amounts throughout this report have been updated to reflect the mid-biennium budget amendments approved by Council. Beginning fund balances for the Building and Permit and Strategic funds were budgeted as transfers of revenue but are shown in this report as beginning fund balance.

As of the end of December 2021, **50% of the biennium** was complete. The City had received **40% of budgeted revenues** and had spent **32.1% of budgeted expenditures**. The tables below show biennium to date budgeted vs. actual revenues and expenditures by fund type.

40% of budgeted revenue and 32.1% of budgeted expenditures may seem low for half-way through the biennium, but the much of the revenue budgeted for permitting activities is expected in 2022, which impacts the Special Revenue Category in tables below (Building and Permitting Fund) as well as the Capital Project and Utility Funds categories. In addition, the majority of capital improvement projects budgeted for the biennium will be started in 2022 (see page 17).

**Property tax** is the General Fund's largest and most reliable source of revenue. 20% of the City's non-levy lid lift property tax is receipted directly into the Street Fund, for use on street operations and maintenance and is not shown in the table above.

Property taxes are due in two payments with April 30<sup>th</sup> and November 2<sup>nd</sup> deadlines. As of the end of 2021, the City had received **48.9**% of budgeted property tax, which is right on target.

Sales tax is the General Fund's second highest source of revenue. The City receives sales tax revenue two months after it is collected by businesses, so December receipts were from sales incurred in October. By the end of December, the City had received approximately 50.3% of its sales tax budgeted in the General Fund. In 2021, sales tax from construction received over the amount of \$192,215 was moved to the Strategic Fund to be used on one-time expenditures, a total of \$351,079 which is not reflected in the table above. In 2022, sales tax from construction received over the amount of \$201,827 will be receipted into the Strategic Fund.

Below is a table that shows a ten-year trend of sales tax, <u>including</u> the 2021 sales tax receipted into the Strategic Fund.

The City received 37.4%, or \$460,393, more in sales tax in 2021 than in 2020. **Sales tax from construction** made up \$273,761 of the increase, which did not met expectations in 2020 due to the pandemic. Without sales tax from construction, the increase over 2020 is still substantial at 19.5%, or \$186,632.

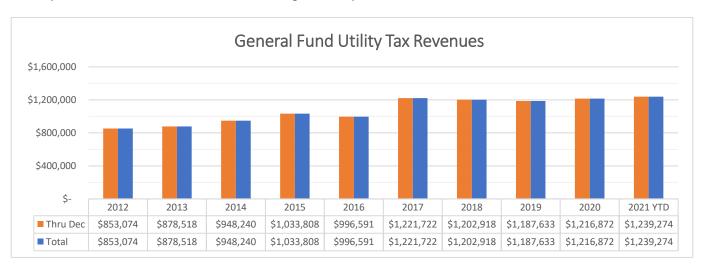

Sales tax from **Accommodation and Food Services** recovered in 2021, increasing by 16%, or \$17,670, and the category of **Admin and Support of Waste Management and Remedial** services increased by 31.3%, or \$28,143, primarily from the sub-categories of landscaping and telemarketing and call center services.

The amounts in the table below show **year to date** sales tax revenue compared to the same period in the prior year and do not have the administrative fee charged by the Department of Revenue removed, whereas the amounts in the table on the prior page are net of the fee. Year to date through December 2019 has been added for comparison purposes.

The General Fund's third largest source of budgeted revenue is **utility tax**. Revenue from utility tax is generally stable, but taxes on natural gas, electricity and water are affected by weather and fluctuate from year to year. By the end of December, the City had collected **50.2%**, or \$1,239,274, of budgeted utility tax.

As seen in the **Utility Tax Revenue chart** on the prior page, there has not been a lot of growth in utility tax – while tax from water, sewer and surface water utilities has increased with the City's population, tax from telephone and cable utilities continues to decrease.

Approximately 5% of budgeted General Fund revenue comes from **licenses and permits**. As of the end of 2021, the City had received **45.5**% of its budgeted General Fund license and permit revenue.

<sup>\*</sup>Building and permitting revenues are no longer reported in the General Fund and have been pulled out for trending purposes

Revenue from **charges for services** also accounts for approximately 6% of the General Fund budget. As of the end of 2021, the City had received **53.7%** of budgeted General Fund charges for services revenue. The City collects **planning deposits**, which are posted to the correct revenue line item once the service has been provided by the City. The negative balance in 2021 is due to moving deposits receipted by the City in 2020 to the correct revenue line item. A journal entry is needed to add the 2021 **Animal Control & Shelter Services** revenue and the corresponding expenditure, a year end entry that has not yet been completed.

# **General Fund Revenue Summary and Expenditure Overview**

## **General Fund Revenue Summary**

As of the end of 2021, the City had received approximately **51%** of its budgeted General Fund **revenue. Intergovernmental revenues** are higher in 2020 due primarily to \$364,774 in CARES Act funding passed thru to the City from Washington State and King County. **Miscellaneous revenues** are higher in 2020 due to higher interest rates and the City doing a better job in 2021 of coding revenue to the correct account. **Other revenues** are transfers in from various operating funds for overhead costs that will be trued up for the final report. General Fund revenues from taxes, licenses and permits and charges for services are discussed on the preceding pages.

## **General Fund Expenditures by Department**

Overall, expenditures for many departments are higher in 2021 than in 2020 due to the way the City is allocating cost of insurance, internal service charges, and some licenses and subscriptions. Prior to 2021, many of these costs were reported as "non-departmental" and allocated to funds outside of the General Fund. In 2021, these costs are allocated to the appropriate department, regardless of the fund.

## **General Fund Expenditures by Category**

Year to date **personnel benefits** continue to be lower in 2021 than in 2020 due to vacant positions that are currently being filled by staff working overtime. Year to date **supplies** were higher in 2020 than in 2021 due to the City purchasing personal protection equipment in 2020 to mitigate the impact of COVID-19. **Transfers out** are lower in 2021 due to a decrease in operating transfers to the Street and Big Rock funds. **Capital outlays** are higher in 2021 because the Police Department purchased a side by side utility vehicle to help monitor summer activities in McCormick park.

## **Building and Permitting Fund Revenue Summary and Expenditure Overview**

The Building and Permitting Fund was created for the 2021/2022 biennial budget, so throughout this report 2020 building and permitting revenue and expenditures have been pulled out of the General Fund and the Deposit Fund (a non-budgeted fund) for trending purposes.

Except for the plan review fee, **Building Permit revenue** is received when permits are issued, so revenue will vary from year to year. The City issued **4 new housing permits** from October 1 – December 31, compared to 100 in the same time period in 2020. In total, **52 new housing permits** were issued in 2021 compared to 179 in 2020. In addition, the Building and Permitting Department issued **449 other permits** from January to December 2021 and conducted **3,291 inspections**.

## **Capital Funds**

In the fourth quarter of 2021 the City received \$274,420 in **Real Estate Excise Tax (REET)** from the sale of 67 units compared to the 60 units that were sold during the same period in the prior year. The average sales price of a unit sold in the fourth quarter of 2021 was \$867,076 compared to the average price of \$876,612 (REET for a \$14 million sale were received November 2020) for the same period in 2020. To date, the City has received \$1,134,969 in REET revenue, which exceeds total 2020 REET revenue by \$336,063.

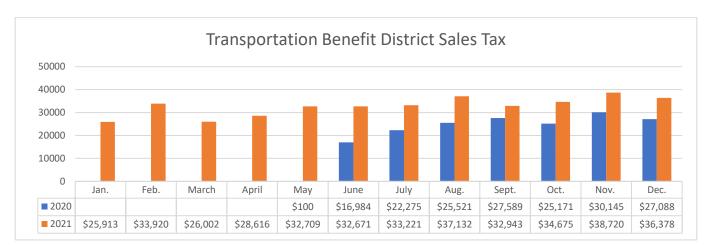

Biennium to date, the City has collected \$77,608 in Street Impact Fees from the issuance of two new housing permits and one commercial permit, and \$216,226 in Park Impact Fees from the issuance of two new housing permits and a \$200,000 deposit to an escrow account that will be reduced when agreed upon developer improvements are made.

## **Transportation Benefit District**

The City imposed a voter approved 0.2% sales tax to fund transportation operations and maintenance related projects that first went into effect in April of 2020. The City started receiving the tax in May of 2020. The graph below will show the tax trend by month until enough data is available to trend by year. As of the end of 2021, the City had received \$395,899, or 54%, of budgeted Transportation Benefit District sales tax.

## **Utility Funds**

**Revenue** from utility billing is reported on an accrual basis until the year end, when an adjusting entry is made to remove revenue that has been billed in December but will be received in January.

## **Water Fund**

As of December 2021, the City had received **51.9%** of its budgeted **Water Fund revenue** and expended **49.3%** of budgeted **expenditures.** Water Fund revenues are higher in 2021 due to an increase in accounts and water consumption. Water Fund expenditures are higher in 2021 than in 2020 due to the reallocation of Public Works maintenance work (salaries and benefits), an increase in water purchases (supplies) due to growth and a hot summer, the timing of City utility tax payments (services), and a budgeted transfer to the Water Capital Projects Fund (transfers out/deposits).

## **Sewer Fund**

As of December 2021, the City had received **49.7**% of budgeted **Sewer Fund revenue** and spent **27.8**% of budgeted **expenditures**. Sewer "Other – Interest & Misc." revenues are higher in 2020 due to a \$217,395 transfer from the Bond Redemption and Bond Reserve funds that were closed at the end of 2020. Sewer Fund capital outlay expenditures are higher in 2021 due to carryover expenditures from the 2020 Wastewater Treatment Plant Reuse Water Pump Skid Replacement Project.

## **Storm Drainage Fund**

As of December 2021, the City had received **49**% of budgeted **Storm Drainage Fund revenues** and **42.1**% of budgeted **expenditures**. Storm Drainage Fund service expenditures are higher in 2021 due to a change in the way the City's annual insurance payment and internal service charges are allocated to departments (services).

#### Revenues

As of the end of December 2021, approximately **40%** of budgeted 2021/2022 biennial revenues had been collected. The cause for significant changes in revenues to most funds can be found on the preceding pages, significant changes for other funds compared to 2020 are as follows: the decrease in the **Street Fund** is due to grant revenue received in 2020 for the LED Streetlight Conversion Project. The increase in the **Big Rock Ball Park Fund** is due to 50% of park levy funds receipted in the fund for the first time. The decrease in the **utility CIP funds** is due to more general facility charges receipted in 2020 than in 2021.

# **Expenditures**

As of the end of December 2021, the City had expended 32% of its budgeted biennial expenditures. The cause for significant changes in expenditures to most funds can be found on the preceding pages. Other changes are as follows: in the **Street Fund** the decrease in 2021 is due to the 2020 Batten Road and LED Streetlight Conversion projects. The decrease in 2021 in the **Water CIP Fund** is due to the 2020 Kennedy Watermain Project. In the **IT Fund**, the 2021 increase is due to payments for implementation of the City's new financial and permitting software.
